

Powering Data Insights

Talend, a leader in data integration and data integrity, is changing the way the world makes decisions. Talend enables every company to find data clarity amidst the chaos.

Talend Data Fabric - Run Your Business on Trusted Data

Talend Data Fabric brings together in a single platform all the necessary capabilities that ensure enterprise data is complete, clean, compliant, and readily available to everyone who needs it throughout the organisation. It simplifies all aspects of working with data for analysis and use, driving critical business outcomes.

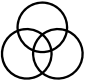

Talend Data Fabric is the only platform that seamlessly combines an extensive range of data integration, integrity, and governance capabilities to actively manage the health of corporate information. This unified approach is unique and essential to delivering complete, clean, and uncompromised data in real-time to all employees. It has made it possible to create innovations like the Talend Trust Score™, an industry-first assessment that instantly quantifies the reliability of any data set.

Powering Data Insights
