

Powering Data Insights

ZERO TO DASHBOARD IN 12 WEEKS

Rapid QuickStart Approach to Deliver an Embedded Analytics Platform

The IMGS Data Intelligence Platform comprises of market leading Gartner recognised solutions, wrapped up by IMGS into a unique single cloud-based platform.

Our approach is to deliver a complete cloud-based analytics platform with full data integration, data warehouse and embedded dashboards, which provide real time insights inside enterprise solutions and/or customer facing applications.

Our rapid approach is based on an existing data model and templates for the successful implementation of analytics in **gaming, cybersecurity, sales, marketing analytics and customer 360.**

We are looking for customers in these areas, who are ready to move to the cloud and want to become data-driven and extract real value from their data investment.

The entire solution will be delivered within a 12-week period and supported by IMGS to decrease customer IT overheads and extract real value from data analytics.
