### FME Puts Your Data to Better Use

From Spatial data to real-time to databases to business systems, data today is more distributed than ever. FME is here to integrate it all. Learn, discover, and put your data to better use.

FME can be tailored to the unique needs of your organisation with its built-in capabilities. New systems are continually added by Safe Software and its community.

#### What is the FME Platform?

		
<p><b>FME Form</b> is easy to install, quick to deliver value and you'll easily transfer your data to consistently do what you want.</p>	<p><b>FME Flow</b> connects everyone to the data they need to drive your organisation into the future.</p>	<p><b>FME Flow Hosted</b> is the quickest and easiest way to embrace the power of FME flow.</p>

FME brings life to your data making the impossible possible. If you can imagine the solution, the FME Platform gives you the power to make it happen, from bulk data movement (ETL) to quality assurance to data replication, and more. There are 3 primary elements in the FME Platform: FME Form FME Flow and FME Flow Hosted.

## Powering Data Insights

**Build. Automate. Deploy FME.  
Then Watch Your Data Come to Life.**

### **Build a More Efficient Organisation**

- **Build with No Code:** Accomplish more and do it faster with our no-code interface,
- **Build for Data Variety:** Whatever type of data you have, FME can handle it.
- **Build for Delivery:** Support for batch processing, ETL, event-driven data and high-speed stream data all within one platform.
- **Build for the Future:** FME is backed by Safe Software and its vast community of users, expanding its reach every day.

### **Automate for Growth**

- **Automate Workflows:** Save time by streamlining data flows with event or time-based automation.
- **Automation without code:** Extensive automation and no-code experience make it easy to create and schedule custom processes.
- **Automate Tasks:** Handle large-scale data processing and integration.
- **Automate Data Sharing:** Easily build no-code corporate web applications for data sharing, updates or scheduling.
- **Automate Quality Assurance:** Build Q & A workflows that flag and fix data quality issues at the source.

### **Deploy Anytime, Anywhere**

- **Deploy Flexibly:** Run anywhere, in any cloud, on-premises or with containers.
- **Deploy With Confidence:** Fault tolerance ensures FME can survive machine failures.
- **Deploy Quickly:** Get started easily with FME Flow hosted. You'll be up and running in minutes.
- **Deploy Efficiently:** FME scales to meet your demands, small or large, and with available CPU-time pricing, you only pay for what you use.
