## Modernise Public Engagement with the Historic Planning Portal

Local and central government authorities often face challenges in managing historic planning requests due to the accumulation of records over decades. The need for a streamlined, accessible solution has become essential to improve efficiency and meet the expectations of modern citizens.

### Introducing the Historic Planning Portal:

Our innovative solution, powered by FME, offers councils an intuitive, map-focused interface that enables quick and easy access to historic planning records. This empowers citizens and professionals alike to self-serve critical information from anywhere, on any device, at any time.

### ● Solution Highlights:

- Accessible on Any Device
- Citizen-Friendly, Map-Focused Interface
- Automated, Low-Code Solution with Configurable Reports

### ● Core Advantages:

- Digital-First Approach
- Significantly Reduce Manual Data Processing
- Empower Citizens to Self-Serve with Modern Tools
